

I know I have come to you a lot in the past few weeks, but this is something that is just outrageous.

Allen West is forcing a tax increase on Florida 's working families.

That's right. Allen West is doing everything in his power to protect tax breaks for billionaires, but refuses to lift a finger to protect 160 million working American families facing a tax increase. First, he couldn't take the time to pass the extension and stop the tax hike as it would mean ruining his vacation plans. Now, the plan is for there to be a vote tomorrow.

It's time to stop all of the bickering and put the middle class before millionaires and billionaires. By midnight tonight, we want to send 2,500 signatures to Allen West to let him know – enough is enough, pass the payroll tax extension immediately!

Allen West is willing to let his Tea Party Republican colleagues leave Americans out in the cold, forcing a \$1,000 tax increase on the average American family and costing up to 1 million Americans their jobs.

As families face tight budgets and sit around the kitchen table worried about buying toys for their children during the holidays and paying for food, gas, and other expense, Republicans are forcing a tax increase on middle class families to protect outrageous tax loopholes for billionaires and oil companies.
